

2.3.1: Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences using ICT tools

Various student centric methods like experiential and participatory learning are adopted by the college to ensure active participation of students in the teaching learning process.

- **Departments adopt the following methods for effective participative and experiential learning:**
- **Group Discussion Field study Project work Seminar and quiz and Case Studies.**
- **Interactive sessions with experts in various fields Participation of the students in various activities is ensured:**
- **The College organizes different activities like blood donation camp, fund raising for flood relief, visiting old-age home, cleanliness programmes to inculcate values and social responsibilities among students.**
- **The college gives importance for the holistic development of students beyond classroom through co-curricular and extra- curricular.**
- **Students are encouraged to participate in sports and cultural activities where they can exhibit their talent. It also fosters the spirit of togetherness and leadership. Students are also encouraged to participate in different Inter-College competitions.**

MINI PROJECTS FOR B.C.A STUDENTS AS A PART OF EXPERIENTIAL LEARNING

CASE STUDIES FOR B.COM STUDENTS AS A PART PROBLEM SOLVING METHODOLOGY

2018

Arunachal
K.C.F. First Grade College

CASE STUDY

ABC handlooms Ltd. Set up a factory for manufacturing jute bags in a remote village as there was no raw materials available. The revenue earned by the company was sufficient to cover the costs and the risks. The demand of bags was increasing day by day, so the company decided to increase production to generate higher sales. For this they decided to employ people from the nearby villages as very few job opportunities were available in that area. The company also decided to open schools and creches for the children of its employees.

A) Identify and explain the objectives of management discussed above.

B) State any two values which the company wanted to communicate to the society.

Solution :- (i) The company is fulfilling the organization and social objectives of management. Organisation objectives include Survival, profit and growth.

- In order to survive, ABC handlooms Ltd. earns enough revenues.*
- Company's profits are sufficient to cover the cost and the risks.*
- Since demand for bags was increasing day by day so the company decided to increase production to generate higher sales, it implies that the company exploits fully its growth potential.*

Social objectives involve the creation of benefits for the society. The company ~~decide~~ decided to employ people from the nearby villages as very few job opportunities were available in that area. It also decided to open schools and creches for the children of its employees (ii) values :-

- Providing employment opportunities in rural areas
- Concern for the environment.

CASE STUDY
NATURE AND SIGNIFICANCE OF MANAGEMENT

Mega Ltd manufactured water heaters. In the first year of its operations, the revenue earned by the company was just sufficient to meet its costs. To increase the revenue, the company analysed the reasons behind the less revenues. After analysis, the company decided:

- To reduce the labour costs by shifting the manufacturing unit to a backward area where labour was available at a very low rate
- To start manufacturing solar water-heaters and reduce the production of electric water heaters slowly.

This will not only help in covering the risks but also help in meeting other objectives.

- a) Identify and explain the objectives of management discussed above.
- b) State any two values which the company wanted to communicate to society.

Solution :- (a) The Objectives of management discussed above are :-
i. Organizational Objectives :- An Organization strives to achieve multiple Organizational Objectives in the interest of its stakeholders like Owners, employees etc. The main Organizational Objectives are Survival, Profit & growth.

ii. Social Objectives :- it is the obligation of every Organization to undertake such activities which will benefit the Society at large like using eco-friendly methods, contributing towards weaker sections of the Society, generating employment opportunities, promoting literacy etc. etc....

(b) The two values that the Company wanted to communicate to the Society are :-

- i. Rural development.
- ii. Environmental Sustainability.

CASE STUDY

Pravin R.
B.COM

F.G.C degree college
0019am K.G-F 563120

Kartik joins a garment factory as a plant supervisor in Lucknow. He observes that the output of some workers is very low as compared to the standards set for their performance. On analyzing the reasons for the same, he finds out that a lot of time of the workers is wasted in getting the requisite materials issued from the store. Whereas on asking, the store keeper complains that there is no harmony in the working of the production department as a whole. Every day the workers approach him at the last minute to procure different kinds of threads, laces, mirrors, buttons etc. If it is not available in the store then he has to place an order with the purchase officer. As a result, a lot of time of the workers is wasted. So, in order to integrate the various production activities, henceforth, Kartik ensures that the store keeper is informed well three days in advance about the requisite material. Consequently, the store keeper is able to keep the materials ready for the workers every morning in accordance with their requirements.

In context of the above case:

- Identify and explain the quality of management that Kartik has introduced in the working of the production department as a corrective measure to control the output of the workers.
- State briefly any two points highlighting the importance of quality of management identified in part (a)

Answer a) Co-ordination is the quality of management that Kartik has introduced in the working of the production department as a corrective measure to control the output of the workers. Co-ordination is the process which helps to integrate the effort of different individuals with diverse needs to secure a unity of action in the pursuit of common goal.

b) The two points highlighting the importance of co-ordination are stated below.

- Growth in the size : with the growth in size of an organisation.
- functional differentiation : as a result of functional differentiation in the an organization, its people & activities get divided into small department basis.
